## PESTICIDE OPERATOR LICENCE

### STRUCTURAL

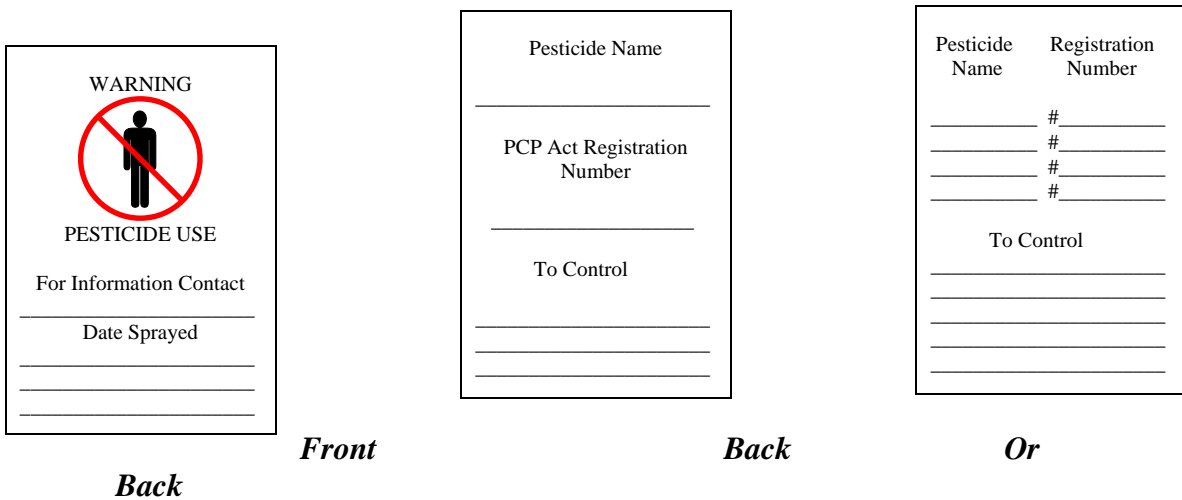

#### **F1. Public notification (Exterior applications)**

- (1) The Operator and/or his agent shall provide notice to all properties that are located within 15 meters of the proposed exterior application, excluding covered baits.
  - (a) The notification shall be:
    - (i) in writing, at least 24 hours prior to the pesticide application; or
    - (ii) verbally, at least 24 hours prior to the pesticide application and in writing immediately prior to the pesticide application.
  - (b) The notification shall include:
    - (i) the trade name or product name of the pesticide,
    - (ii) the active ingredient(s) found within the pesticide,
    - (iii) the type of pest to be controlled,
    - (iv) the proposed date of application,
    - (v) the address of the property being treated,
    - (vi) the name and telephone number of the operator doing the application.
- (2) If the pesticide spray activity cannot take place within 48 hours of the scheduled treatment, then the Operator and/or his agent shall “re-notify” all properties in the same manner indicated above.
- (3) Notification is not required for exterior applications of structural pesticides on or within 1 meter of a structure, unless that structure is located within 1 meter of the property boundary.

#### **F2. Signage**

- (1). For application of commercial or restricted class pesticides including but not limited to private, commercial and municipal properties, the following shall apply:
  - (i) The operator shall place a sign or signs on all properties that have had an exterior pesticide application, excluding covered baits.

- (ii) At the discretion of the operator, the sign or signs should be placed in a manner to ensure high visibility.
  - (iii) The operator shall inform each client that the pesticide spray sign must remain in place for a period of not less than forty-eight (48) hours but not more than ten (10) days after which time the client shall remove the sign.
  - (iv) The sign shall meet the minimum requirements as illustrated in subsection (3).
- (2) Signage is not required for exterior applications of structural pesticides on or within 1 meter of a structure, unless that structure is located within 1 meter of the property boundary.
- (3) The sign must meet the minimum requirements as follows:

*For illustrative purposes only. Sign, pictogram and letters are not drawn to scale.*

The sign and information contained on it must be weather resistant for at least forty-eight (48) hours.

The sign shall be at least twenty-eight (28) centimeters high and twenty-two (22) centimeters wide.

**The front of each sign shall bear:**

The words “WARNING” at the top in capital letters;

Below those words a pictogram showing a single, black silhouette of an adult person on a white background within a red circle crossed by an oblique red bar;

Below the pictogram the words “PESTICIDE USE” in capital letters;

Below those words the words “FOR INFORMATION CONTACT” in capital letters and the company name and telephone number. The Department of Environment and Conservation name and contact number (1-800-563-6181 - St. John’s) must also be placed below the company contact information and identified accordingly;

Below the phone numbers the words “DATE SPRAYED” and the date the treatment begins;

The front of the sign may bear only words and markings that do not detract from the required information, occupying not more than the bottom 2.5 centimeters of the sign, that identify the employer of the person performing the treatment;

The words “WARNING” and “PESTICIDE USE” on the front of each sign shall be printed in red letters and shall be at least 2.5 centimeters high.

All other letters and numbers shall be printed in black and shall be at least 1.0 centimeter high.

**The back of each sign shall bear:**

The word “PESTICIDE” at the top left in capital letters followed by the name of the pesticide used or intended for use;

**And Either:**

Below those words the words “REGISTRATION NUMBER” in capital letters followed by the registration number assigned to the pesticide under the *Pest Control Products Act* (Canada);

**Or:**

The words “REGISTRATION NUMBER” at the top right in capital letters followed by the registration number assigned to the pesticide under the *Pest Control Products Act* (Canada);

**And:**

Below those words the words “TO CONTROL” in capital letters followed by the name of the pest to be controlled;

The outer edge of the red circle on the pictogram shall be at least 12.5 cm in diameter on each sign and the width of the circle shall be approximately one-tenth the size of the diameter.

**F3. Invoicing Criteria:**

- (a) All invoices / work orders shall contain, at a minimum, the following information:
  - i. Company Name / Address and POL #;
  - ii. Customer Address and Contact Number;
  - iii. Technician / Applicator Name and PAL#;
  - iv. Technician Signature and Date;
  - v. Pest Issue and Service Provided;
  - vi. Pesticide Used and PCP Registration Number;
  - vii. Treatment Date / Time;
  - viii. Application Procedure;
  - ix. Surface treated; and
  - x. Any special conditions / precautions provided to customer (ie: Re-entry intervals, clean-up procedures).
- (b) Deviations from sample will be accepted as long as all above noted information is contained on Invoice / Work order.
- (c) All invoices must be kept and available for review by an Inspector by the Pesticides Control Section or any other inspector as outlined in the *Environmental Protection Act, 2002*.
